New York Mixology Candles by Vane and Joya

Posted on 10 December 2008

Vane and **Joya** have teamed up to create these unique candles inspired by recipes of classic mixed drinks. Three different candles are offered: Basil Vodka Gimlet, Passionfruit Gin Martini, and Honey Whisky Fix were all created to evoke the ambience of speakeasies from days of yore. As a fan of candles and their scents, I am interested to see how these turned out. New York Mixology will launch at **STUDIO @ Fred Segal** in Los Angeles and at Tomorrowland's Edition boutiques in Japan. Check the images after the jump, as well as more information.

They will also be available online through **Vane** and **Joya**.
