sweet hereafter

Those looking for vanilla scented candles have had a hard time finding sophisticated, sexy incarnations of the scent—so often bogged down with "cute" bakery infusions (cake batter, coco-licious, cookies n' cream!) and cloying, oddly plastic undertones. Joya Candle in Brown Sugar & Vanilla is decidedly grown up and clean: rich, buttery wafts of Tahitian vanilla offset by a twinge of sharp, burning ginger. Just right.

SPECTACULAR SPECTACULAR

For a limited time, Japanese skincare giant Shu Uemura is issuing a huge box of fun: a limited-edition set of their best-selling Skin Cleansing Oil plastered with gorgeous trippy anime drawings by artist Ai Yamaguchi. The three bottles have vignettes of dreamy, saucer-eyed, mermaid-ish girls lounging pensively among droopy, blossom-filled cherry trees, inky black streams and butterfly-strewn clouds. The end result is so stunning and original, the facial washes are more likely to end up in a display case than on the bathroom sink. CR \$200 for the box set (including depsea water) or \$60 each, shuemura.com
