**A Find: Joya Candles**

Candles usually mean smoke and dripping wax to clean up. Not so with [Joya Candles](#). These elegant and simple candles avoid drips and excess heat. And, thanks to vegetable wax, there's NO SMOKE!

I was given a humble votive of lemongrass & guava as a "thank you" from a co-worker. Without lighting it, the gentle (it was very gentle) fragrance graced my cube for days and people near me smiled. A clear acrylic box and organza bow enveloped the votive — no wrapping needed. And such is the care with which each candle is presented, whether it's a 2-inch pillar or a 2-wick jar.

And the fragrance! Unlit, it is subtle. Lit, it is sublime. I'm addicted to gardenia & honeysuckle. Lilac & cyclamen are perfect for the bathroom. Cassis & green ivy for the kitchen. Juniper & vetiver for bedroom. With 15 fragrances, there's plenty to choose from.

Handmade in New York City, the candles comprise essential oils, palm oil kernels and cotton wicks — uber-natural. The upside: no smoke, no drips, no synthetic stuff, amazing fragrance and beautiful packaging. What more could you ask for? A great find at [joyacandle.com](http://joyacandle.com)
