**Vane NYC x Joya Studio 'Shades of Dusk' Perfume Jewellery**

27 January 2010, 17.25 | Posted in [Accessories](#), [perfume](#) | [1 comment](#) »

NYC's [Vane](#) collaborates with [Joya Studio](#) on a capsule collection of solid perfume jewellery, *Shades of Dusk*, allowing you to carry a mesmerizing mixture of scents around your neck. The vintage looking necklaces are as follows:

'Ambrosia' comes in a clean 'Roman Cameo' pendant and has notes of shredded coconut, madagascar vanilla, and clove bud oil. 'Potion' is inside an 'Ancient Sphere' that has a magnetic twist and features the engraved title of a Gauguin painting. Notes in 'Potion' include lavender, bergamot, and liquid amber. Finally, 'Venom' is featured within an 'Enchanted Spider' and contains orange blossom, lily of the valley, and sweet musk, the perfect gift to give or to receive. A closer look on the next page. Available [here](#) and soon at [Anthropologie](#).
